CASE# 2018-00045909

## CASE REPORT

## NARRATIVE

18-45909

12/08/2018

Ofc J. Trombley #345

On 12/8/18 at 1200 hours I responded to Fairfax Hospital at 10200 NE 132nd St on report of a rape that occurred on 12/6/18 at the hospital. Dispatch advised that *Sex Assault Victim*, a patient at Fairfax, was raped by another patient, [REDACTED]

I arrived and was brought to a room where I waited for [REDACTED] who prefers to be called [REDACTED]. [REDACTED] told me that [REDACTED] raped her. She provided a recorded verbal statement that is included with the case. In the statement she said that Thursday night, 12/6, between the hours of 2100 and 2200, just after snacks she had popcorn and was looking for someone to share it with. She asked [REDACTED] if he wanted to share and he agreed. After a few moments he leaned over to her and said, "Follow me". She got up and followed him as he went into his room. Inside the room she said that he pulled her into the bathroom where there was no cameras. After they got into the bathroom [REDACTED] said that [REDACTED] began kissing her, which she did not want. He then guided her hand to his penis and directed her to stroke it. After a few minutes she said that he pushed her down by the shoulders and she began oral sex. Then she said that he wanted more and told her, "I want your pussy." He told her to turn around and directed her to pull her pants down. Then she said that he put himself inside her. Then she said that he heard a sound and told her that she needed to leave so they didn't get caught breaking the rules. He checked outside the room and when no one was looking told her to leave, which she did.

She said that she felt dirty and cleaned herself up and then thought that she broke a rule and went to find a staff member to ask if she did. She found a staff member and reported the incident. [REDACTED] does not know the name of the staff member, but described him as a [REDACTED]

[REDACTED] said that staff conducted an investigation and told her that everything seemed consensual, but separated [REDACTED] into the central wing and [REDACTED] into the north wing.

[REDACTED] said that she was upset that they did not believe her so she called the police to report it. She stated that she is willing to assist in prosecution.

In another room I contacted [REDACTED]. He identified himself verbally as [REDACTED]. I asked him what happened between him and [REDACTED] on Thursday night.

# KIRKLAND POLICE DEPARTMENT

123 5th Avenue Kirkland, WA 98033

CASE# 2018-00045909

## CASE REPORT

### NARRATIVE (continuation)

He said that [REDACTED] followed him into his room and then into his bathroom and she kissed him. He told her that he didn't want to get into trouble for breaking the rules and had her leave. He denied having sex with [REDACTED]

Fairfax risk management conducted the investigation, but will not be back to work until 12/10. I sent [REDACTED] an email requesting to see their investigation, the related video, and the name of the staff member that [REDACTED] first talked to after the incident.

Investigation continues.
